OUR GOAL IS TO GROW THROUGH THE SUCCESS OF OUR CLIENTS

Introduction

OHSAS 18001:2007 is a certification specification intended to help organizations formulate Occupational Health & Safety policies and objectives in accordance with legislative requirements and identified OH&S (Occupational Health & Safety) hazards and associated risk assessments. OHSAS 18001:2007 specifies the requirements for an OH&S Management System. These requirements shall be implemented by the organization and verified by a Certification Body in order to qualify for certification. OHSAS is a systematic practice of identifying potential for loss, assessing the risks, making decisions on appropriate controls, implementing and then monitoring the system to control the loss.

QGS provides cost effective practical training programme that delivers optimal outcomes. Our earlier Lead Auditor Courses received overwhelming response. Many participating organizations have sent queries and confirmed participation for further courses. This has encouraged us to have NABET registration of Lead Auditor Courses.

Objectives: To provide participants with the knowledge and skills to audit Occupational Health & Safety Management System. Provides an in-depth knowledge of Occupational Health & Safety Management System against requirements of OHSAS 18001: 2007 from the view point of auditing

The Curriculum

NABET approved Lead Auditor Training Courses are conducted by the renowned Management Systems Consultants, who are registered with National Accreditation Board for Education and Training (NABET) / IRCA.

Through formal presentations, case studies and workshops, the course would cover the detailed requirements of OHSAS 18001:2007 and focus on development of skills for conducting an OHS management Systems audit. The course also helps in understanding how an effective OHS Management System Works.
